

Wetland Habitats

STATION #13

Directions:

- 1) Draw a habit card from the pile.
Read to learn more about one of the wetland habitats.
- 2) Then use the flow chart to identify the name of the habitat described on the card.

As time allows, draw another card and repeat steps 1 and 2.

Think about...

- Characteristics that each of the habitats have in common.
- What are some differences between these habitats?

Purpose: Experience using a flow chart to identify or key a specific type of wetland.
